DIGITAL PERFORMANCE OF SOUND
RECORDINGS (WEB IV)**

**Docket No. 14-CRB-0001-WR
(2016-2020)**

**ORDER GRANTING JOINT MOTION FOR
EXTENSION OF TIME**

On July 11, 2014, Pandora Media, Inc., National Association of Broadcasters, and SoundExchange, Inc. (together, the Moving Parties) filed a motion seeking extension of the time set for submission of a joint proposed case schedule and discovery plan in the captioned proceeding.¹

Pursuant to their Case Scheduling Order, the Judges established certain proceeding deadlines consistent with statutory mandates. The next deadline date for the remaining participants is October 6, 2014, the date by which each must file a Written Direct Statement (WDS). Discovery follows the filing of WDS for a period of 60 days. In the Notice of Further Proceedings, the Judges charged all remaining parties to develop a discovery plan by July 11, 2014. The time between the Notice for Further Proceedings and the date for filing WDS provides time for the participants not only to develop their respective cases in chief, but also to continue discussions regarding possible resolution of this proceeding without a hearing.

Given the flexibility of the current proceeding schedule and the representation by the Moving Parties that they are working diligently and in good faith to propose a discovery plan, the Judges hereby **GRANT** the motion and extend the time to August 1, 2014.

IT IS SO ORDERED.

 DATED: July 14, 2014

Suzanne M. Barnett
Chief Copyright Royalty Judge

¹ The Moving Parties seek time regarding development of a discovery plan as well as "a joint proposed case schedule". The Judges issued a case schedule at the commencement of the proceeding. Unless the participants file a motion to amend or alter the current case schedule, they need not propose a joint case schedule.
